EXPERIENCE

Marathon Petroleum Company - Business Systems Analyst Intern | Findlay, OH | May 2025 – August 2025

- Developed an automated Power BI dashboard supporting the Heartland-to-FISERV migration, replacing manual Excel tracking and enabling stakeholders to identify missing MAG transition data across 8,000 locations. Connected SQL tables and DAX logic to improve reporting visibility, saving approximately 5 hours of manual work weekly within a $30B annual settlement environment.
- Ensured data quality and PCI compliance by enhancing Power BI refresh, access and validation logic, achieving 99% accuracy and reducing manual reporting by 90%.
- Resolved a 2-year Credit Card Summary issue by analyzing 167 customer incidents quantifying over $200K in support cost and customer trust impact. Translated qualitative customer feedback into measurable business metrics for leadership.
- Led an 8-person cross functional to build a Salesforce business case; defined success metrics (KPIs), communicated program risks and value drivers, and secured executive buy-in to restart the project stalled for 2 years.
- Designed user stories and acceptance criteria in Azure DevOps using Agile methodology for Credit Card Summary rebuild.

Spartan Chemical Company - IT Intern | Maumee, OH | October 2024 – March 2025

- Audited purchasing data errors that disrupted reporting accuracy, improved data clarity and decision making for the purchasing team. Leveraged SQL Server Management Studio to clean datasets and develop stored procedures to supply reports with accurate, ready-to-use information.
- Created custom reports for purchasing team to streamline order tracking and product identification, reducing ERP lockouts and improving efficiency. Leveraged Microsoft Report Builder to automate searches and enhance data visibility.
- Collaborated with the Systems Analyst and end users to gather reporting requirements, ensuring both technical and user-friendly design to support better business decision-making.

Rocket Wireless - Telecom-Cellular Telephone Coordinator | Toledo, OH | April 2023 – April 2024

- Resolved customer phone issues, from system updates, number changes to account modification, by prioritizing cases and documenting complex workflows for smooth services service.
- Reduced service errors by creating step-by-step guides for recurring technical tasks, helping staff and customers navigate complex processes.

CERTIFICATION

- CompTIA IT Fundamentals Pro+ Certified

PROJECTS

Automated Stock Prediction System | Python, Yahoo Finance API
- Built a Python-based stock prediction model using Yahoo Finance to automate data retrieval and forecasting.

- Applied regression and time-series techniques to forecast stock price movements and evaluate model accuracy for investment decision support.

Gym Management Database System | *Microsoft SQL Server, Power BI*
- Designed and implemented a relation database to support a gym's transition from manual tracking to a centralized digital system.
- Built tables for Members, Employees, Subscriptions, Classes and Payments to track revenue, staff and customer data.
- Integrated Power BI to create automated reports for Membership Overview, Class Registration, Revenue by Subscription, and Next Payment Due, enabling data-driven management decisions.

Financial Data Visualization Project | *Excel, Yahoo Finance*
- Conducted multiple financial modeling exercises analyzing a publicly traded firm's performance using historical stock, income statement, and balance sheet data.
- Created price trend visualization, histograms, and ratio charts to evaluate profitability and financial health.
- Built a 10-year real estate investment sensitivity analysis to assess risk and return scenarios.
- Modeled 10-year property cashflows for a mixed-use commercial development using NPV and IRR analysis.

EDUCATION

University of Toledo - B.B.A in Management Information Systems, Minor in Financial Data Analysis | *Toledo, OH | May 2026*
GPA: 3.6 / 4.0

EXTRACURRICULAR

Minority Professionals in Business (MPIB)

Treasurer | September 2024 – Present
- Managed $1,000 in organizational finances and budgeting
- Collaborated with executive board to plan events and initiatives that promote inclusion and career readiness.
  Mentor for Young Executive Scholars (Y.E.S.) Program – Jones Leadership Academy where I discussed college preparation, career pathways, and leadership in business, helping students build confidence in pursuing high education.
